Project Title: GrepThink Live Chat
Project Owner (Sponsor): Ryan Monroe & Sean Dougher
Project Owner (in CS115): Sean Gordon
Scrum Master (Sprint 4): Hugh Feng

Actions to Stop Doing:
- We should make sure everyone is more consistent with attendance.

Actions to Start Doing:
- More testing code changes with unit tests and hand input to the website.
- Document functionality of the code as well as the hand-input tests.
- Follow our projected burn-up chart better.

Action to Keep Doing:
- Meeting 3 times a week, communicating outside of class and meetings. This has been effective for us and is required by the class, so there is no reason to stop doing this.
- Updating others on our progress/changes via Slack or text.
- Helping each other with problems, such as setting up our environments that we did in Sprint 1.
- Pushing changes regularly to GitHub.
- Proper Scrum meetings, with updates and everything
